

UTAX CARD READER: CONTROLLING IN MINIATURE FORM.

Secure, organise, control: Have the use of your printers, scanners and copiers firmly under control with the UTAX card reader. Public institutions, such as schools, universities and councils, will benefit from a reliable overview of the costs incurred by individual users. The increased security offered when accessing sensitive data is just as useful in an office environment too. The user box, e-mail sender and local management code are allocated during local authentication via the USB card reader and furthermore, when used in conjunction with the Network Print Monitor the associated access account can be regulated and budgeted.

RELIABLY REDUCE YOUR COSTS.

Authentication on the system protects you from unauthorised access when copying, printing and scanning. You can easily regulate the individual print, copying and scanning permissions by allocating ID codes or you can prevent the unauthorised or anonymous sending of e-mails with the help of the 'scan to e-mail' function. The card reader eliminates the possibility of prying eyes, as an assigned document box can only be opened by its associated user. The path to secure and efficient use of your resources is simple: a USB port enables the card reader and the Card Authentication Kit to be used directly with most UTAX devices*. After successful installation, only those users with an existing transponder or a new card will gain access.

*For more detailed information, contact your UTAX dealer.

TECHNICAL DATA

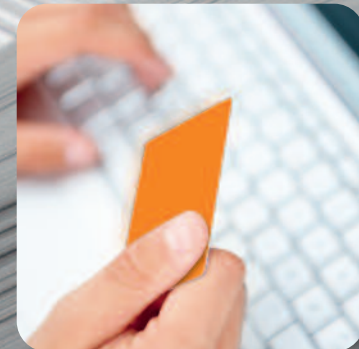

SUPPORTED TRANSPONDERS

Version HID PROX (125 KHz)	HID PROX
Version Multi 125 (125 KHz)	EM410x, HITAG 1, HITAG 2, HITAG S, EM4150, T5567, Q5
Version Inditag (125 KHz)	Indala
Version Mifare (13.56 MHz)	ISO 14443A: Mifare Ultralight, Mifare Mini, Mifare 1k, Mifare 4k, Mifare DESfire
Version MultiISO (13.56 MHz)	ISO 14443A: Mifare Ultralight, Mifare Ultralight C, Mifare Mini, Mifare 1k, Mifare 4k, Mifare DESfire
Version HID iCLASS (13.56 MHz)	HID iCLASS
Version Legic (13.56 MHz)	Legic Prime, Legic Advant

GENERAL

Dimensions	88 x 56 x 18 mm (H x W x D)
Power supply	5V ± 10 % via USB cable

12/2010
Specifications subject to change without notice.

Following in-depth analysis of all output systems used in the company, with our **UTAX DOCUMENT CONSULTING** sales concept we create an offering precisely tailored to the customer's needs. Using the very **latest UTAX digital systems** in combination with **practical software solutions** from the DMS areas of **archiving, form printing and accounting**, the entire **output and document management** becomes extremely efficient and **costs are reduced**.
